

Contributors

Duygu AKYOL

Received her B.LA in Landscape Architecture from Ege University Faculty of Agriculture and MSc. in City and Regional Planning from Dokuz Eylül University Faculty of Architecture. She is currently a PhD student and works as a Research Assistant at Karadeniz Technical University. Her major research interests are urban planning and design, landscape planning, environmental management.

Paramita ATMODIWIRJO

Paramita Atmodiwirjo is a professor of architecture at Universitas Indonesia. She obtained her PhD and Master's degrees from the School of Architecture, University of Sheffield. Her research interest is on the relationship between architecture, interior and well-being.

Beyza Nur BATI

Received her B. Arch in Interior Architecture and Environmental Design from Bilkent University, Faculty of Art, Design and Architecture (2015). Earned her MSc. degree in Architecture from TOBB University (2017). Currently studies as a PhD. student at Mimar Sinan Fine Arts University, Faculty of Architecture.

Olivier BOUET

Doctor of Physics, university Lecturer, Co-Director of the EVCAU laboratory, Head of the Master 2 Research course "City, Architecture and Heritage" Paris7/École d'Architecture de Paris Val de Seine. My research involves the acquisition of 2D and 3D data and their processing in order to obtain structured 3D models as an aid to the diagnosis, analysis, restitution, understanding and presentation of heritage ensembles.

Gökçe EVREN

Gökçe Evren is graduated (2013) from Industrial and Product Design Department, METU and, she got her masters degree (2003) in "Interior Architectural Design" from ITU IMIAD Program. She studied (2014)

at Hochschule für Technik Stuttgart, University of Applied Sciences, Department of Interior Architecture.

Yüksel DEMİR

Assoc. Prof. Dr. Yüksel DEMİR Faculty at ITU Department of Architecture, Served as a guest professor in Politecnico Di Milano, Anadolu University, Auburn University. Founder director of ITU MardINT R&D Center. Working on Architectural Design, ICT in Design, Art [theory & practice]. Coordinates Turkish Antarctic Research Station Working Group.

S. Banu GARİP

S. Banu Garip got her B.Sc degree in "Architecture" (2000), M.Sc degree (2003) and PhD degree (2010) in "Architectural Design" from Istanbul Technical University. She studied at NC State University College of Design, USA (2009). Her studies focus on interior design, urban design, exhibition design, environmental psychology and housing studies.

Sinem GÜREVİN

Achieved Bachelor Degree of Landscape Architecture from Yeditepe University at 2004. Graduated from Istanbul Technical University with M.Sc. Degree in Landscape Architecture at 2012. Still a student at Istanbul Technical University for Ph.D. Degree in Landscape Architecture. Have been working as a landscape architect for 15 years.

Sema MUMCU

Received her B.LA, MSc. and PhD. in Landscape Architecture from Karadeniz Technical University Faculty of Forestry. Currently works as an Assistant Professor at Karadeniz Technical University. Her major research interests are environment-behavior relationship, spatial behavior in urban open spaces, landscape design and design education.

Veniamin Aleksandrovich NORIN

PhD Eng., Associated Professor of the Department of Technology of Building Materials and Metrology at Saint-Petersburg State University of Architecture and Civil Engineering.

Author of more than 100 research papers and learning guides, 5 inventions. Research interests: architectural education, engineering education, 3D technologies, metrology.

Natalia Vladimirovna NORINA

PhD Eng., Associated Professor of the Department of Mechanics Saint-Petersburg State University of Architecture and Civil Engineering. Author of more than 40 research papers and learning guides, 2 inventions. Research interests: architectural education, engineering education.

Gulden Demet ORUÇ

Assist.Prof.Dr. Gulden Demet Oruç is currently working at Istanbul Technical University, Faculty of Architecture, Urban and Regional Planning Department. Her research topics mainly focus on urban design and planning.

Mohammed Nabil OUISSI

Doctor of mechanical engineering, I am currently a professor in the Department of Architecture in Tlemcen, but also at the National School of Engineers of the City of Tlemcen. I am also a member of the MECACOMP laboratory and continue my research and publications in this field.

Gökçen ÖZKAYA

Received her bachelor's degree in architecture from Middle East Technical University, Faculty of Architecture (2003) and M.Sc. degree in architecture from Suleyman Demirel University, Faculty of Architecture and Engineering (2006). Earned her PhD. degree from History and Theory of Architecture Programme at Yıldız Technical University in 2011. Major research interests include history of Ottoman architecture and Ottoman houses.

Yury Vladimirovich PUKHARENKO

D.Sc. in Eng., Professor of the Department of Technology of Building Materials and Metrology at Saint-Petersburg State University of Architecture and Civil Engineering. Author of more than 200 research papers and learning guides, 22 inventions. Research interests:

continuously reinforced (fibrous) concrete study, engineering education.

Haniye RAZAVIVAND FARD

Dr. Haniye Razavivand Fard, a Researcher, Lecturer, and Architect with more than 10 years of cross-functional work experience in international contexts of Italy, Turkey and Iran. The holder of a Double-Degree PhD in "Architectural Design" Program at Istanbul Technical University and in "Architecture. History and Project" Program at Politecnico di Torino. The current researches focus on architectural design, socio-spatial aspects of urban design, sustainability, morphology and university-city interaction.

Mehmet RONAEL

Mehmet Ronael graduated from the Urban and Regional Planning Department of Istanbul Technical University in 2016, and he studied his master in Urban Design Program. He is currently doctorate student in Urban and Regional Planning. His research topics are generally creative economy, quality of place, site selection models, and gentrification.

Yasin Çağatay SEÇKİN

Achieved Bachelor Degree of Architecture from Mimar Sinan University at 1998. Graduated from Istanbul Technical University with M.Sc. Degree in History of Architecture at 2000 and Ph.D. Degree in Urban Design at 2005. Working as a professor and administrator at Istanbul Technical University.

Chihab SELKA

Chihab Selka, an architect by training, teacher and doctor in the Department of Architecture in Tlemcen. Having worked in a design office, I have acquired a lot of experience in the field of construction in general but also in heritage. As a researcher, I am now pursuing my career in the university field.

Imene SELKA OUSSADIT

Having worked in many heritage sites in my hometown "Tlemcen", I have always been passionate about the

subject. Trained as an architect, I had my magister in 2010 on caravanserais. I am currently teaching in the Department of Architecture in Tlemcen where I am pursuing my doctorate on the theme of baths.

Murat SÖNMEZ

Received his B. Arch in Architecture from ESOGU, Faculty of Architecture (1998). Earned his MSc. and PhD. degree in Architecture from Gazi University (2003-2011). Currently working as an Associate Professor at TOBB University. Major research interests include design theories in contemporary architecture: surface architecture and construction theories

Marco TRISCIUOGLIO

Prof. Dr. Marco TRISCIUOGLIO, architect, is the Director of the PhD Program "Architecture. History and Project" at Politecnico di Torino - Department of Architecture and Design, where he is Contact Person for International Relationships with Asia and Oceania. He is Member of the Scientific Committee of the European network EURAU and Guest Professor at Southeast University Nanjing (School of Architecture). The main topics of his books and papers are architectural theories, urban morphologies and

landscape and urban design.

Yandi Andri YATMO

Yandi Andri Yatmo is a professor of architecture at Universitas Indonesia. He obtained his PhD, Master's and Postgraduate Diploma from the School of Architecture, University of Sheffield. His research interest is on the development of design theories and methods and their relevance to design practice.

Serap YILMAZ

Received her B.LA, MSc. and PhD. in Landscape Architecture from Karadeniz Technical University Faculty of Forestry. Currently works as an Associate Professor at Karadeniz Technical University. Her major research interests are perception of urban green spaces, planting design, zoo design, and landscape design.

Ferro YUDISTIRA

Ferro Yudistira is a PhD student at the Department of Architecture, Universitas Indonesia. He obtained his undergraduate degree from Universitas Sriwijaya, and Master of Architecture from Universitas Indonesia. His research interest is on the temporality of architecture and its elements.
